FROM THE

PRESIDENT'S DESK

Dear Friends,

While the world continues to battle the effects of the COVID-19 pandemic, it has become clear that a strategy of long-term total lockdown is simply unsustainable for most economies. With the process of Unlock 3.0 in place, we hope that the country will lead to a restart of the economic engine, with proper precautions against the pandemic.

This is surely some good news!!.

FLO has been continuously striving to represent, benefit and connect with all our members to build and sustain a thriving business community as we start working towards rebuilding our economy.

Despite challenging times we have been working hard to bring the best of speakers on a range of business and leadership topics.

Looking at the brighter side of pandemic the new digital normal has, however, brought us closer and members now have the opportunity to not only attend the national webinars, but also choose from an array of programs across 17 chapters Pan India.

I take this opportunity to thank all the chapters and their members for their whole heartedly support.

Looking forward for your constructive inputs to make it more inclusive.

Warm Regards,

Jahnabi Phookan
President, FLO
