A conversation with Adil Hussain, Actor

July 3, 2020

Acting is all about embodying another personality and portraying it in front of a camera. If one focuses on the craft and goes deeper into the understanding the art of acting, the by-products are inspirational. I have never aimed to be at the top but have always aimed to act well instead.

Internationally acclaimed actor Adil Hussain known for his performances in award winning films such as Ang

Salvation/Mukti Bhavan and Mira

Nair's The Reluctant Fundamentalist, he is also a part of the star cast of Star Trek Discovery Season 3.

"Acting is all about embodying another personality and portraying it in front of a camera. If one focuses on the craft and goes deeper into the understanding the art of acting, the by-products are inspirational. I have never aimed to be at the top but have always aimed to act well instead, said Adil ,while in conversation with Ms Jahnabi Phookan, National President FLO,

NO GOING BACK

Forging a new future after COVID-19'

Social businesses are here to solve people problems like poverty, global warming, migrant workers, medical facilities, etc. That's what we did when we created Grameen Bank, it was a business solution for people who needed it, particular to poor women. Amazingly, Grameen Bank is all focused on poor women as 97% or 9 million of our followers are women.

Nobel Laureate
Prof. Muhammad Yunus

Professor Muhammad Yunus is a pioneer in Micro finance and established the Grameen Bank in Bangladeshin 1983.

His objective was to alleviate

poverty by providing loans on terms suitable to poor and creating awareness amongst them a few basics of financial principles so they could help themselves.

When it came to the employees working at AZB, gender never crossed my mind. I never saw if the person was a man or a woman, all that mattered was were they doing a good job. Also, We never made the women feel like we were doing them a favour by offering flexibility & a safety net because it was the remuneration for their good work.
